

Pallet Shipper

Award winning design protects large payloads against swings in ambient temperature.

Features & Benefits

- Protects payloads against swings in ambient temperature for up to 5 days
- Available in a range of sizes using either EPS or LDPE insulation
- Optional single use cardboard or multi-use plastic outer casings
- Delivered flat packed with refrigerants as a space saving kit
- Assembles in minutes and folds flat when empty for storage or return
- All components are non toxic, robust, reusable and 100% recyclable
